

Sam Casey

Seattle, WA · sam.casey@example.com · +1 (555) 010-4477 · github.com/samcasey-demo · samcasey.example.com

EDUCATION

University of Washington
B.S. in Computer Science · GPA 3.8/4.0
Coursework: Machine Learning, Distributed Systems, NLP, Databases
Honors: Dean's List (6 quarters)

Sep 2022 – Jun 2026

EXPERIENCE

Meridian Labs
Machine Learning Engineering Intern

Jun 2025 – Sep 2025
Seattle, WA

- Built an offline evaluation harness for a RAG customer-support assistant (Python, pytest), scoring 1,200 historical tickets nightly and catching 3 retrieval regressions before they shipped.
- Cut p95 retrieval latency from 480 ms to 210 ms by adding embedding-cache warmup and moving the vector index from flat search to HNSW.
- Wrote the team's prompt-injection red-team suite (41 cases), now a required pre-deploy gate for two production assistants.

UW Systems Research Group
Undergraduate Research Assistant

Oct 2024 – May 2025
Seattle, WA

- Implemented a trace-driven simulator for GPU cluster schedulers; reproduced 3 published baselines within 2% and surfaced a starvation edge case now included in the group's benchmark suite.
- Co-authored a workshop paper on preemption-aware scheduling (2nd author) and presented it at the poster session.

PROJECTS

ledgerlite · Rust, SQLite

github.com/samcasey-demo/ledgerlite

- Append-only personal-finance CLI with double-entry validation; 1.4k GitHub stars, 27 external contributors, signed releases for macOS and Linux.

whisperboard · Python, PyTorch

Jan 2024 – Apr 2024

- Local-first meeting transcriber; fine-tuned Whisper-small on 30 h of noisy lecture audio, cutting word error rate from 18.2% to 11.6% on a held-out set.

SKILLS

Languages Python, Rust, TypeScript, SQL

ML PyTorch, scikit-learn, RAG pipelines, eval harnesses

Systems Linux, Docker, GitHub Actions, Postgres
